# Door Protection Welding Covers

Order # **DEN DF-WB100**

The Door Protection Welding Cover Set, Part No. DF-WB100 are pocketed, leather blankets that easily slide over a wide variety of door shapes to ensure ultimate fitment and protection of trims, glass, and parts of the vehicle while grinding or welding. Innovative features like the pocketed construction and contoured shape allow the covers to hug the door, including around the window frame.

Easy installation and removal. Heavy duty leather material and reinforced stitching provide an elite level of protection.

**Fits Snug on the Door** - Contoured pattern & pocket construction ensures full coverage and safety.

**Heavy Duty Everything** - Thick leather, reinforced stitching, & tough hanging grommets for durability.

**Versatile Application** - Tall and short doors are no problem, no magnets needed. Steel or Aluminum. Set of Two Covers - Shields both the left and right door or the inside and outside of one door.

Product dimensions: W 47.25" x L 56.5", 1.28mm Thick
